Your health is precious. Have you had it checked this year?

We all have to look after our health, but people with severe mental illness need to be a little extra careful. Your medication and lifestyle could put you at risk of certain health problems. The good news is, you’re entitled to an annual health check to get advice and support.

What does a physical health check include?

- Your blood pressure
- Your weight
- A blood sugar test
- The opportunity to discuss general lifestyle issues and healthy living.

Make sure you get the results of your tests back.

Do you exercise?

Ask your GP or practice nurse if there is an ‘exercise on prescription’ scheme available. This can get you free access to leisure centres.

Want to stop smoking?

Your GP or pharmacists can support you to reduce or quit smoking. Find out if quitting may effect your medication.

Are you eating well?

Ask for advice and if a specialist nutritionist is available to help you further.

Do you drink or take drugs?

The health check is an opportunity to discuss alcohol and drug use.

Rethink Mental Illness is a charity that believes a better life is possible for millions of people affected by mental illness. For 40 years we have brought people together to support each other.

We run services and support groups across England that change people’s lives and we challenge attitudes about mental illness.

For more information visit www.rethink.org or call 0300 5000 927.
